

SureColor SC-F6400 and SC-F6400H dye sublimation printers

Target new customers
with standout colours

EPSON[®]
EXCEED YOUR VISION

Achieve outstanding image quality without compromising productivity

Introducing the Epson SureColor SC-F6400 and SC-F6400H 44-inch dye sublimation printers. Using Epson's latest line of Nozzle Verification and PrecisionCore MicroTFP technology, these printers combine speed, strength, and productivity to deliver innovation at every level.

Textile producers, photo studios and companies that manufacture promotional items can now achieve superior quality results on rigid and textile substrates. Designed to push past productivity and performance boundaries, the SC-F6400 and SC-F6400H cut out operational downtime, reduce waste costs, and yield consistently spectacular prints time after time.

Target new customers with standout colours

The SureColor SC-F6400H extended ink sets also empower your organisation to expand into new markets and stand out from the competition in style. Widen your colour gamut with Orange and Violet, reduce graininess with Light Cyan and Light Magenta, or print true fluorescents in Pink and Yellow to capture the imagination of your audience.

Rely on Epson technologies'

Achieve outstanding image quality without compromising productivity. The SureColor SC-F6400 and SC-F6400H dye sublimation printers feature Epson's latest innovations in hardware and software to keep your organisation ahead of the curve from day one.

The complete package

The SC-F6400 offers users a complete solution so everything works in harmony: from hardware and software, to printheads, ink and warranty.

Vibrant new colours

The SC-F6400H has 6 colours and can be equipped with CMYK plus either FyFp (Fluorescent Pink and Fluorescent Yellow), LcLm (Light Cyan and Light Magenta) or OrVi (Orange and Violet) inks to enable customers to maximise profit in new markets.

Increased productivity

Increase output by up to 20%* with the new PrecisionCore MicroTFP printhead. User productivity is also improved thanks to the large touchscreen, which combined with an easy to access maintenance area, improves efficiency and helps to reduce printer downtime.

Reduced downtime

Next generation Nozzle Verification Technology enables continuous and reliable productivity by automatically detecting and adjusting clogged nozzles as and when needed.

Higher capacity ink packs

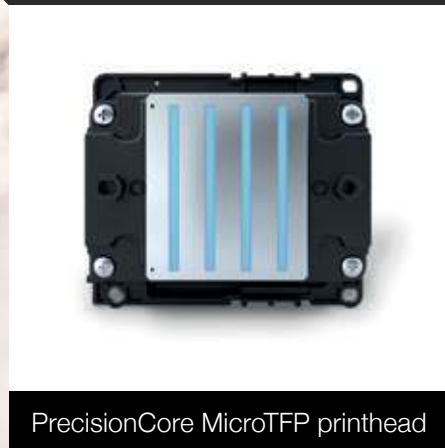

45% larger ink packs* help to reduce replacement frequency, while less packaging reduces waste. The ink packs only need to be shaken and inserted, which means there's no need to pour and stir, which can create mess.

Integrated Ink Pack System

Expand your business offering

The SC-F6400 and SC-F6400H eliminate the limits of standard printers. With a wider range of colours, greater resilience, and vast array of features designed to help boost productivity at every level, Epson allows your company to achieve its full potential.

Fashion

Keeping up with demand in the fast-paced fashion industry has never been simpler. Accelerate your printing run with less disruptions and wow audiences with more creative, vibrantly coloured designs across a wide range of fabrics.

Sports apparel

Embrace creativity without sacrificing productivity. Catch your customers' eye with Fluorescent Pink and Fluorescent Yellow and produce football shirts, cycling wear, swimming wear and more designs you can rely on.

Homeware

Attract interior designers and brand owners with sharp image quality and photo realistic prints across curtains, blinds, upholstery, cushions, ceramic tiles, or any hard substrate using a polyester coating.

Promotional items

Produce high-quality personalised promotional items such as mugs, mouse mats, key rings, and other ready-made blanks with ease, all while assuring operations run smoothly with minimal disruption.
